Brasada Ranch, a JELD-WEN Community, received the AIA Award of Merit for Design Excellence.

JELD-WEN® windows and doors with Low-E glass added to the energy efficiency and natural day lighting that contributed to the Gold LEED® certification of this project at *Brasada Ranch® in Powell Butte, Oregon.*

JELD-WEN offers the only windows and doors with Earth-friendly AuraLast® wood for superior protection against wood decay, water saturation and termites. We support the land stewardship ethics of Sustainable Forestry Initiative (SFI). SFI-certified AuraLast wood is now available for our Custom Wood windows and patio doors.

JELD-WEN
WINDOWS & DOORS

JELD-WEN® windows and patio doors are designed for lasting durability. We offer custom capabilities, as well as a wide assortment of options.

Glass

Energy efficient Low-E glass is standard; LoE³-366, Neat™, tinted, textured, impact-resistant and high-altitude insulating glass are optional.

Exteriors

Metal-clad-wood exteriors are available with 41 color finishes, three copper clad finishes, or a clear, satin-anodized finish for an industrial look; factory-primed wood exteriors come in three optional wood species.

Simulated Divided Lites

Bead and putty bar profiles are available in six widths: 5/8" (bead/putty), 7/8" (bead/putty), 1" (copper putty available on copper-clad units only), 1-1/8" (bead/putty), 1-3/8" (bead only) and 2-5/16" (bead only).

Exterior metal bars are available in all 41 clad colors or primed for painting.

Custom Wood Doors

These exterior and interior doors coordinate well with Custom Wood windows and patio doors. They're available in a vast range of architecturally authentic designs. Custom Wood doors are offered in a wide variety of wood species, including Juniper, finish colors and textures, decorative grilles and metal accents, as well as many tinted and textured glass types.

Juniper – uniquely attractive
The swirly woodgrain gives each door a customized look.

Premium Wood Windows and Patio Doors

Premium Wood Silestone EX windows and patio doors add style and substance to your project. They are built from AuraLast wood for lasting beauty, and each comes standard with energy efficient Low-E or optional LoE³-366 glass. Options include 9 popular clad colors and 9 optional interior finishes.

AuraLast, JELD-WEN's proprietary, water-based, vacuum-pressure process is free of volatile organic compounds.

In addition, we offer three optional wood species for Custom Wood interiors and two optional species for exteriors.

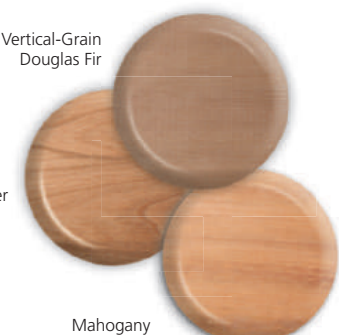

Wood Options

JELD-WEN wood windows and patio doors are built from solid pine AuraLast® wood.

Vertical-Grain Douglas Fir

Knotty Alder

Mahogany

Styles

Awning, casement, double-hung, horizontal gliding, radius and geometric windows, and sliding or swinging patio doors are all available in a range of standard or custom sizes.
