Lifetime Limited Warranty – Residential

10-Year Limited Warranty – Commercial/ Multi-Resident

Subject to the limitations and exclusions below, and for the duration of the applicable Warranty Period of the Residential Warranty Holder or Commercial/Multi-Resident Warranty Holder (as defined below), Simonton Windows, Inc. and Simonton Industries, Inc. (hereinafter, "Simonton"), warrants that the Product will be free from non-conformities in material and workmanship. Simonton will repair or replace any Product that fails to meet this Limited Warranty of a Residential Warranty Holder that is installed up to an elevation of not more than three stories; provided in either case, Simonton may refund the purchase price (the lesser of the original Product/component purchase price or the original catalog list price) if in Simonton's opinion such repair or replacement is not commercially practical or reasonable or cannot timely be made.

Warranty Period

Residential Warranty Holder: Transferable 10-Years Limited Warranty

The Lifetime Limited Warranty is transferable by the original Residential Warranty Holder once either (a) to a subsequent Residential owner and the Residential Warranty Period will continue or (b) to a subsequent Commercial/Multi-Resident owner and the Commercial Warranty Period will apply only until the 10th anniversary of the transfer; and in either case only if the Warranty has been properly transferred following the procedure set forth below.

Commercial/Multi-Resident Warranty Holder: 10 years from the earlier of the date Product was shipped from Simonton or an authorized dealer; transferable to successor non-Residential owners during and for any balance of the 10 year Warranty Period and only if the Warranty has been properly transferred following the procedure set forth below.

WARRANTY

Warranty Transfer

Any Warranty Transfer described above will be deemed effective only if the following procedures are completed: (1) written notice is provided to Simonton within 30 days after the transfer of ownership of the premises where the Products are installed, (2) delivered to Simonton Windows, 5300 Briscoe Road, P.O. Box 1646, Parkersburg, WV 26102-1646, (3) accompanied by a copy of this Limited Warranty, the Product order number (bar code located in the sash head, sill or jamb of each Product), and a certified check in the amount of \$50 made payable to "Simonton Windows."

Warranty Holder Classifications

Residential Warranty Holders: If the Product is installed in (i) a new residential dwelling and the first occupant owns the dwelling or (ii) an existing owner-occupied residential dwelling, and in each case, at the time of installation such owner is also responsible for Product replacement, then that owner is a Residential Warranty Holder. For example, assume the Product is installed in a condominium unit (a "dwelling") in a multi-resident building. If the first occupant of the condominium unit is the first owner of that unit and is also responsible for Product replacement, then that owner is a Residential Warranty Holder; however, if the owner is not the first occupant or if someone else other than the owner (for example, the condominium association) is responsible for Product replacement, then the owner is not a Residential Warranty Holder.

Commercial/Multi-Resident Warranty Holders: If the Product is installed under conditions in which no one qualifies as a Residential Warranty Holder as described above, then the warranty holder is the owner of the dwelling or building in which the Product has been installed at the time of installation (and its builder and contractor). That owner is classified as a Commercial/Multi-Resident Warranty Holder. For example, this includes owners of commercial or investment buildings, or multi-resident premises in which the occupant is not responsible for Product replacement whether or not the occupant owns the residential dwelling unit in the premises (including by example, certain condominiums, town homes, duplexes, apartments, cooperatives).

This Limited Warranty is further subject to the limitations and exclusions below:

Bays, Bows, and Garden Window Products

All Products making up a bay, bow, or garden window are covered under this Limited Warranty ONLY if the use, installation, finishing and maintenance are consistent with Simonton's recommendations and written instructions that are generally available in Simonton's Installation Instructions as updated by bulletins or other written communications or on Simonton's website at www.simonton.com. However, without limiting the foregoing the following installation procedures are emphasized and failure to do so will void the Limited Warranty:

- A roof must be built over all Bay or Bow windows (not required for Garden Windows) after installation as the top of the Bay or Bow window is not designed to prevent water penetration as manufactured, without the help of a roof
- A cable system must be used to help support from above all Bay or Bow windows (not required for Garden Windows).
- All joints must be checked and caulked with caulking compound because handling of the Product during installation may cause factory sealed joints to be compromised

Vinyl:

Lifetime - Residential;

10-years Commercial/Multi-Resident

The vinyl components of Products are warranted against peeling, flaking, chipping, blistering and corrosion for the applicable Warranty Period. If such defects occur, Simonton will provide replacement parts at no charge to the Warranty Holder. Lifetime - Residential;

10-years Commercial/Multi-Resident

The Product hardware (locking mechanisms, fasteners, rollers, balances, etc., excluding the finish on brass door handles) is warranted against peeling, flaking, rusting, blistering, corrosion and breaking for the Warranty Period (two (2) years for hardware components installed within two (2) miles of any body of salt water). If such defects occur, Simonton will provide replacement parts at no charge to the Warranty Holder. The finish on brass door handles is NOT warranted.

Glass:

20-years to Lifetime - Residential;

10-years Commercial/Multi-Resident

The installed and sealed insulating glass unit is warranted against permanent and material obstruction of vision from film formation caused by dust or moisture in the air space between the glass for the Warranty Period. The internal grid is warranted against insert slippage, flipping or sagging for the Warranty Period. If such defects occur during the first 20 years of the Residential Warranty Holder's Warranty Period or fails during the first 10 years of the Commercial/Multi-Resident Warranty Holder's Warranty Period, Simonton will provide a replacement insulating glass unit at no charge to the Warranty Holder.

CARE AND MAINTENANCE OF YOUR VINYL WINDOWS AND DOORS

Congratulations on choosing windows and doors that offer the easy care and maintenance of vinyl. Vinyl won't pit, peel or flake over time. As a result, with only simple care and cleaning, your windows and doors can keep their beautiful appearance for years to come.

Like any surface exposed to outside elements, your windows and doors will get dirty from time to time, but cleaning them is a snap. Often, heavy rains will wash the vinyl clean, but if the rain isn't enough, you can restore the splendor of the windows and doors by following these simple instructions.

Vinyl

- n Wash using mild detergent (if necessary) and a soft cloth or ordinary long-handled soft bristle brush. **Do not wash the windows or doors with a high-pressure spray. The extreme pressure could crack or destroy the caulking around the window or door.**
- n For difficult to remove dirt and stains use the readily available household cleansers listed on the chart. Follow the manufacturer's instructions on use of the cleansers.
- n In some cases you may wish to use a mildly abrasive cleanser such as Soft Scrub,[®] but the use of any abrasive material could scratch the surface of the glass and window or door frame.

- n Do not use liquid grease remover, strong soaps and detergents containing organic solvents, nail polish remover, furniture polish or cleansers containing chlorine bleach. These items could affect the surface appearance of the vinyl.

Screens

- n For routine cleaning carefully vacuum your window screens
- n To thoroughly clean window screens, remove the screens from the window frame. Place the screens on a flat surface (such as the driveway) and use mild soap and water with a soft bristle brush to remove dirt and grime. Clean both sides of the screen and around the interior and exterior of the frame. Rinse off the unit with lukewarm water. Allow the screen to dry completely before replacing in the window
- n Do not use a high-pressure spray to clean screens; it could damage the units.
- n Use extreme care when cleaning aluminum mesh, since it can be dented or creased if too much pressure is placed on the screen.
